

Features

- Narrow Band: concentrates transmission of clamping force, less weight
- Stepless over 360°: uniform compression or uniform surface pressure
- Clamp ear: compensates for component tolerance, adjustable surface pressure
- Dimple: increases clamping force, spring-effect compensates for changes in diameter due to thermal expansion
- Specially formed strip edges: reduced risk of damage to parts being clamped

Material

- 304 Stainless Steel

Note

PEX series Stepless Ear Clamps are only well suited to PEX tubing.
